

## Surface Plating

Voss has several selected partners that are experts within surface plating of numerous types of materials.

Voss supply parts for different industries and can deliver components with the properties needed.

For metal parts we can do:

### **Corrosion resistance**

Hot Dip Zink plating, Electro Zink plating

Geomet Dacrome

Anodizing

### **Electronic parts**

Copper plating, Ni plating, Sn plating

Silver-plating, Gold plating

### **Decorative parts**

PVD plating

Chrome plating

Gunmetal plating

Copper, Brass, Varnished Copper, Varnished Brass

Powder coat

Wet paint

### **Facts:**

- Voss Industry can deliver corrosion test result for plating (Grit test & thickness).
- Also helping customers to set up requirements for visual inspection.
- All plating's are done by suppliers with straight requirements for protecting environment.
- All plating's are free of hazardous materials and full fill requirements in REACH and Rohs directive
